

The Lethbridge Society of Glass Artisans (LSGA) is a group of artisans who work with glass using a variety of techniques to create art glass of the following types:

- stained glass (windows, panels, suncatchers, lamps, etc.)
- fused glass (plates, bowls, vases, sinks, jewelry, etc.)
- etched glass (windows and wall art)
- lampworked glass (beads and sculptures created using a torch)

We meet on a monthly basis. Our workshop and tools are available for use by all members, as is access to our Glass & Supplies Purchasing Co-Op. We have been a non-profit group since 1990 with a mandate to promote glass art.

Our \$60.00 membership fee includes: (80.00 couple, \$45.00 snowbirds)

- Access to the Society's specialty glass tools that can be expensive for the average artisan to own
- An outlet to display and sell your glass work at various exhibits and sales
- Educational workshops
- Other activities such as glass swaps, specialized classes and potlucks
- Optional storage of glass and tools at workshop (additional fee applies)
